

# The New, Radically Simpler Way to Go Solar.

## Push-Button Simplicity for Commercial Solar

In today's on-demand economy, you can push a button and get just about anything – a ride, a meal, even a house.

At **OnSwitch**, we believe the process to switch to clean, solar electricity should be just as simple.

We made it fast and easy to get a solar quote at a guaranteed lowest price. Plus, our solar advisors work on your behalf to manage partners and ensure your projects stay on track.

## Accurate Solar Quotes with Just a Building Address Using Aerial Imagery

It used to take months of effort working with multiple vendors to simply learn whether a solar project would pencil out.

Now, with **OnSwitch's SkyQuote™** you can get instant, accurate pricing at with just a building address. Each SkyQuote includes financial analysis of multiple scenarios to share with decision-makers and colleagues.

The **SkyQuote Process** (U.S. Patent No. 10,373,011) uses high definition aerial imagery to create a high-resolution 3D map of the roof and nearby shade producing objects. In seconds the **SkyQuote Engine** generates an accurate solar design that maximizes savings based on utility rates, your energy use, local sunlight, and component prices.

## SkyQuote™ Process

### Aerial Imagery

Multi-view, high definition, and 3D.

### Roof Mapping

AI-based image processing, and detailed modeling of buildings and objects.

### Solar Design

System optimized to maximize net cost savings.

## Guaranteed Lowest Price

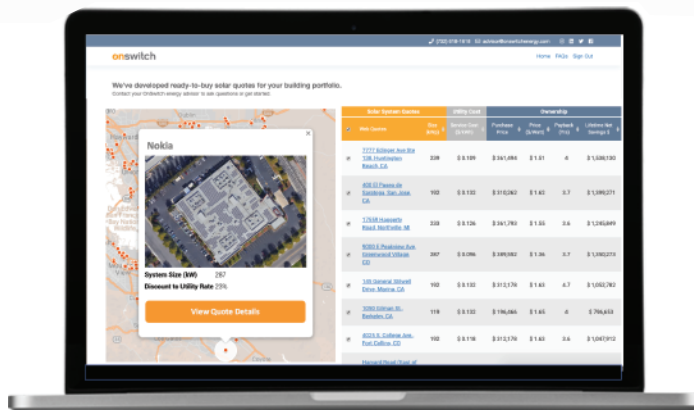

**OnSwitch** will guarantee you the lowest price on the market for a top quality solar system. We achieve this through technological efficiency, access to a wide selection of suppliers, and pre-negotiated volume pricing with installers, and finance partners.

## Innovation Enables Lowest Prices for Top-Quality Systems

OnSwitch's **SkyQuote™** technology cuts overhead costs to design, optimize, and quote a commercial solar system. Those technology-driven savings and our marketplace business model are how OnSwitch can offer such low prices.

OnSwitch partners with pre-qualified, experienced, local solar installers to deliver your project. Included in the price is OnSwitch's turnkey project management support to manage the entire process from purchase through operation.

## Commercial Solar Project Costs

## Powerful Tools to Plan Solar Projects for Multiple Buildings in Your Organization

**OnSwitch** offers you a complimentary planning website containing solar quotes and savings analyses for all of your organization's buildings.

With the **SkyQuote Solar Planner™** tool you can quickly view, compare, and rank solar projects. When it's time to plan budgets, you will be armed with accurate pricing and payback analysis to review with other stakeholders in your organization.
