

Powering the Renewable Energy Economy

Renewable Energy Transactions at Modern Market Scale

LevelTen Energy provides transaction infrastructure for buyers, sellers, advisors, and financiers in the renewable energy economy. With the world's largest marketplace of power purchase agreements, the industry's most sophisticated real-time analytics, and a suite of online tools and standard contracts, we make it possible to get better deals done, faster.

A BETTER WAY TO A PPA

LevelTen's platform improves every step in the PPA process:

Planning for a PPA -

- **Volume:** Explore how much budget it'll take to reach 80% of the renewable energy target with PPAs, vs. 50%, or 25%.
- **Location:** Find out what it'll take to cover energy usage in any market from Sweden to California.
- **Timing:** See how prices change based on the project's development maturity and what's available by your deadline.
- **Mix:** Discover which *combination* of PPAs offers maximum diversification benefits.

Selecting a PPA - Compare all the options and choose confidently with CFO-Ready™ Analytics that calculate a billion data points a day.

Requesting Proposals - Get custom PPA proposals from the world's largest network of developers with LevelTen's RFP Automation Tool.

Executing the Deal - With standard contracts that meet the needs of developers while protecting the buyer's interests.

Monitoring Results - Easily track progress, pull reports, and plan your next PPA with LevelTen's Performance Monitoring Software.

ACCELERATING THE CLEAN ENERGY TRANSITION

Accelerating Connections

With the world's largest PPA marketplace:

- 4,000+ PPA Offers
- 1,200+ Active Projects
- 140+ GW of capacity
- 350+ developers

Accelerating Decisions
